

NEPAL

PROJECT FACT SHEET

April 25, 2015, will be forever etched into the psyches of millions in Nepal. A 7.8-magnitude earthquake erupted causing widespread catastrophic devastation throughout the country and as far as eastern India.

Between the initial earthquake and powerful aftershocks, thousands of poorly constructed homes came crashing to the ground in mere seconds. Then, 17 days later, another major earthquake violently ripped through this utterly fragile nation.

More than 8,000 people are believed to be dead, over 14,000 have suffered injuries, and hundreds of thousands are completely homeless. In a matter of days, our international development team was able to fly to Kathmandu to assist in aid distribution and begin devising a strategy for rebuilding efforts.

While the majority of media attention highlighted aid distribution in Kathmandu, remote mountain communities were the most deeply affected—and overlooked. These villages remained largely unreachable in the days and weeks following the earthquakes. And it is in these regions where World Help has been focusing our time and energies.

Since 1997, World Help has been investing in Nepal through spiritual development programs and child sponsorship. We have built strong partnerships with trusted nationals who are committed to spreading the message of the Gospel. Since the quakes, these strategic partnerships have allowed us to reach thousands in isolated areas with life-saving supplies, tents, medicine, and more.

Only with your help are we able to continue relief efforts in these remote areas. The months and years ahead will be incredibly difficult for the people of Nepal. Officials are estimating the recovery process will cost no less than \$2 billion.

That is why World Help is inviting you to walk alongside us to rebuild a Nepal that is stronger than ever. Our vision is two-fold: to maintain the distribution of critical humanitarian aid and to begin rebuilding in some of the hardest hit villages.

We are currently partnering to rebuild children's homes, mountain schools, 50 churches, and 50 family homes that were destroyed by the quakes. Our strategy also includes digging clean-water wells in several impoverished communities. These investments will restore hope to thousands of devastated Nepalis.

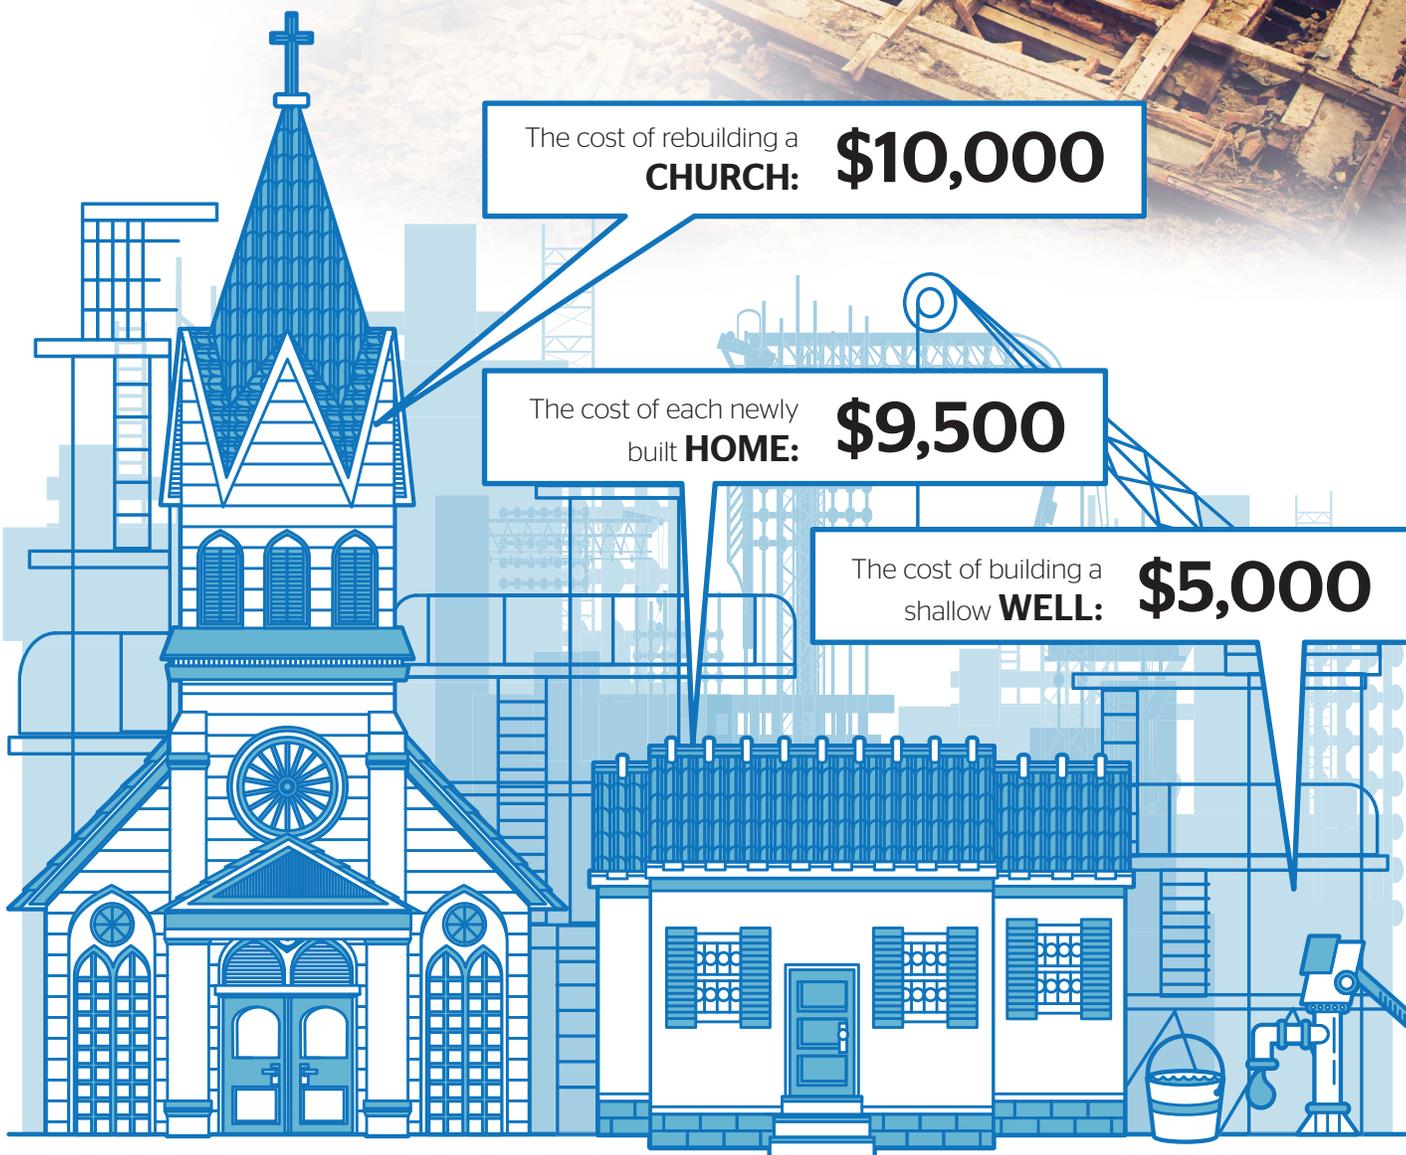

AID & RELIEF

Your gift allows us to distribute clean water, food, tents, blankets, medicine, supplies, and more. **You can provide a Nepali family with life-saving aid for one month for as little as \$50.**

REBUILDING

Your gift to rebuilding efforts will fund the construction and implementation fees of one of the following sustainable investments.

The strategy is foundational to build stronger, healthier communities in Nepal. Our brothers and sisters have endured unimaginable loss, trauma, and emotional bankruptcy. Now more than ever, Nepal needs our compassion . . . and commitment.
