## LETTER FROM THE PRESIDENT

Craig and Robin, since the beginning of your partnership with World Help, you have always demonstrated a passion to help those in need and introduce them to the love of Christ.

During the past 11 years, you have generously given – individually and through your business, Chilton Logging, Inc. – to deliver HELP and HOPE to 185,615 men, women, and children around the globe. That's absolutely incredible! You truly are changing the world, one person at a time.

You have rescued children from poverty, improved the health of thousands, introduced girls to freedom, transformed an entire village, and so much more. You have made an impact that will outlive you and last for eternity.

Thank you for your tireless commitment and your faithful dedication. So many families wouldn't have hope today if it weren't for your generosity.

The signature of Noel Brewer Yeatts, written in cursive black ink.

Noel Brewer Yeatts  
President, World Help

# CHILD SPONSORSHIP

You have always had a special place in your heart for the least of these – the poor and underprivileged children around the world. You are passionate about investing in the generations to come through child sponsorship. And in 2017, you helped many kids in their moment of greatest need!

In addition to sponsoring kids in Guatemala, India, and Nepal, you stepped in for children who unexpectedly found themselves without a sponsor. When a beloved donor and long-time friend of World Help passed away, these kids no longer had someone to advocate for them or invest in their futures.

*But because of your quick action, nearly 500 children were able to remain in the sponsorship program and continue receiving the essentials they need for a brighter future.*

Your support provides these kids with necessities like clean water, healthy food, medical care, and educational assistance. You have rescued them from a life of poverty and illness and played a crucial role in helping them fulfill their potential.

**Thank you for getting involved and investing in the lives of these children!**

## CHILD SPONSORSHIP

You have been a constant source of support and encouragement to each of your sponsored children. Evelin, Deiby, Rony, Lalhmathuoi, and Himal are all grateful that you are a part of their lives.

*Through sponsorship, you have given them the chance at a healthy life – and the confidence to chase their dreams.*

But more importantly than providing food, medical care, and other critical needs, you have let each of these children know that he or she is loved.

Lalhmathuoi is a perfect example. After losing both of his parents at a young age, he was afraid and wondered how he would survive

with no one to care for him. Then, you became his sponsor. Now, he is safe and happy and dreaming of his future.

“

*“I am thankful to my sponsors, Robin and Craig Chilton, for sponsoring me. Because of their support and love, I have courage to face my future. I ask God that there will be more people like my sponsors – people whose lives overflow with the love of Jesus and touch people all around them.”*

# INDIA

In rural India, proper medical care can be difficult to come by and even more difficult to afford. But you provided two mobile medical clinics that are bringing help to countless people.

The people of Sagargram were overjoyed when their community, located in the district of Neemuch, was the first stop for the clinic. A dentist and a doctor were able to perform a number of general health exams and provide over-the-counter medication to patients.

In the village of Panpur, the doctors were able to provide vital care to 25 pregnant women and mothers of small children – something they had no access to before. The women were so grateful to know that their kids were getting the treatment they needed.

Thank you for providing emergency medical care through these mobile clinics.

These clinics have also made a life-changing difference for women and girls in the Banchara community by providing medical care and specific treatment for those infected with HIV.

## INDIA

You have also improved the health of people in India in many other ways. By giving clean water, you gave Kewat's family a new life!

Kewat and his family used to walk a long distance to the nearest well. Because so many people shared this well, it often ran dry. When this happened, Kewat would have to spend much of his small income to purchase water from a private company. But now ...

*"My family is able to get clean drinking water," Kewat said. "This will save us money, which is important to feed my family. I am so thankful!"*

In another part of India, you rescued a young woman from the brink of death!

Nisha was scared when she felt pain in her lower back. She had felt it before – not long before the doctors told her they would have to remove her kidney. Sure enough, she soon learned that her one remaining kidney was failing.

Nisha's mother volunteered to donate her kidney, but they couldn't afford the expensive procedure ... that is, until you stepped in. Today, Nisha is healthy and extremely grateful for all that you have done.

“

*"Without the transplant I would certainly have died. For me, the gift of life has been amazing."*

Nisha

## INDIA

The residents of one leper colony in India are still praising God for the beautiful homes you provided for them when their own society chose to ignore them.

Your compassion means that people like Sharda have a place to live and hope for the future.

Sharda has lived in the leper colony for many years, but when her husband died from leprosy, she felt more hopeless than ever before. Her own leprosy caused her great pain, and after suffering serious burns on her hands, she could no longer work.

Then, you provided a place of hope and safety for Sharda and others like her. Because of the homes you built, Sharda has a home to call her own and the help she needs.

When the homes were being built, she said

*“Being a leper, this is impossible for us to get this kind of home, but I will be living in a very good home which I never ever [could] dream of in my life. I will get care and everything I need. I want to say thank you so much.”*

Sharda

# NEPAL

**Thank you for improving the lives of families like Rahul's. Your support has allowed them to rebuild their lives even after losing everything to a natural disaster.**

**Y**our gift of clean water has been life-changing for one community in Nepal.

After the devastating earthquake of 2015, hundreds of people found themselves homeless. They were relocated to a temporary settlement, but there was a problem – there was no clean water.

The community well was contaminated with iron and made people sick when they drank water from it. Their only other option was to walk long distances to get the water they needed. Children missed school and fell behind in their assignments since they were often tasked with collecting the water while their parents went to work.

Then, because of your generosity, the community received a water filtration system, and everything changed!

"We don't need to worry about water for bathing, drinking, and washing," said Rahul, a father living in the village. "We are separated from different waterborne diseases by the help of this hygienic drinking water. Our children can go to school in time and do their assignments in time.

“

*"We are really thankful to all of the helping hands that take their own part in helping the world and the people who are in need."*

Rahul

# THAILAND

Your compassion for exploited girls in Thailand is inspiring. By helping support a Freedom Home, you are enabling them to dream of a brighter future.

In Thailand, girls bear the brunt of their families' financial responsibilities – often at a horrible cost. From a young age, many are forced to believe that, without an education, their only option is to sell their bodies. They spend their lives exploited and abused, unaware of their own worth.

*But by supporting a Freedom Home where they can have a safe place to live and study, you have helped young women regain their freedom ... and have shown them the love of Jesus.*

Suda, whose name we've changed to protect her identity, has been sold five times – the first when she was just 11 years old. She should have

been playing with friends and attending school. Instead, Suda was considered property, and she eventually ended up working in the red-light district. Without an education, she would never have a chance at freedom.

But because of your support, girls like Suda can choose a better life. Suda became connected with the Freedom Home where she received an education and emotional support. Today, she has completed high school and dreams of attending college and starting a new career.

# REFUGEE RELIEF

The people living in refugee camps today never dreamed they would have to flee their homes. Then, senseless violence stole everything from them – even food, clean water, and durable clothing.

*But you made sure countless refugee families had the essentials they needed to survive. You helped restore their dignity and showed them they are not forgotten.*

Serkan, whose name we've changed for safety, lost his wife in a bomb explosion near Mosul. He was left to care for their children on his own, and he couldn't even afford to buy them milk. "My children have lost the right of having a mother; I don't want them to lose their health, too," Serkan said.

But your gifts helped provide the necessities refugees need. In Serkan's case, the healthy food he received helped keep his children alive and healthy.

**Thank you for helping refugees who once felt alone and were almost on the brink of death. You have helped save lives.**

# GUATEMALA

**G**uatemala is one of the poorest countries in the world, but thanks to you, numerous families there now have hope. You didn't just transform the village of Potreritos, Zacapa; you transformed the lives of the people living in this community.

Families in the village now have clean water to drink. Children have a new playground to enjoy and a repaired school to learn in. And the local church has a beautiful new building where they can gather and worship.

Your generosity has also introduced vital nutrition into families' diets by providing them with food bags and investing in sustainable fruit trees that will produce healthy food for years to come.

Thank you for caring enough to provide a complete revitalization of this village – both physically and spiritually.

# UGANDA

Christ the King Church in Uganda is a powerful testimony of how your investments are providing more than just help for today ... you are also providing eternal hope for tomorrow.

When Pascal, a little Ugandan boy, first received a child sponsor and later had the opportunity to tour with the *Children of the World* International Children's Choir, he had no idea God would eventually use him to start a church that would affect hundreds of people.

But just a few years later, there he was – along with several other *Children of the World* alumni – playing his bass guitar and leading the congregation of Christ the King in worship.

Because of you, Christ the King Church now has a building so members can worship together and minister together to their community in Uganda.

## UGANDA

**W**hat began as 100 people gathered under a tent quickly grew into something much larger. Many orphans, impoverished families, and those affected by the Lord's Resistance Army found the hope they were looking for at Christ the King.

Soon, there was no more room under the tent.

*That's when you stepped in.*

The congregation of Christ the King now worships each Sunday in the building you provided. And they still have plenty of room to grow.

“

*This is only the beginning.  
More is yet to come when the  
Word of God shall come to  
fulfillment in my life as I  
spread the Word in Uganda.”*

Pascal

Thank you for giving a young champion for Christ like Pascal a place and a platform where he can serve his community and spread the Good News.

Craig and Robin, your concern for “the least of these” is apparent in the projects you’re so passionate about. Thank you for being the hands and feet of Jesus.

# ZIMBABWE

Your support of education in Zimbabwe is not only affecting children today ... it is providing opportunities for future generations.

The boys and girls at Smile for Africa Honours Academy in Zimbabwe continue to benefit from the school building you provided through your fundraising efforts.

Because of you, children like Alice now have a safe place to learn and grow.

Alice was 7 years old when she first started going to school. But to get to class, she had to walk more than six miles every day — a dangerous journey for a child her age. Still, she kept going. She loved learning.

Unfortunately, her parents couldn't afford to pay her tuition for very long. It broke her heart when she had to drop out of school.

But you helped answer her prayers with your support of Smile for Africa Honours Academy. Now, she has to walk only a short distance

to school, and she can concentrate on her education and achieving her goal of becoming a nurse someday.

## PARTNERS IN HOPE

Through your Evening of Hope, you have shared your passion with those around you and invited others to join you in the mission of rescuing people in need. Since 2011, you have raised **\$593,825** through your fundraising events alone! Your impact through these events include:

Provided  
**CLEAN WATER**  
to villages in need

Rescued children  
suffering from  
**MALNUTRITION**

Provided  
**HOUSING**  
for children and  
widows in Uganda

Built a  
**SCHOOL BUILDING**  
in Zimbabwe

Built safe  
**HOUSING**  
for a leper  
colony in India

**TRANSFORMED**  
the village of  
Potreritos in  
Guatemala

Sent aid to  
**REFUGEES**  
in Iraq

Provided two mobile  
**MEDICAL CLINICS**  
in India

## IMPACT

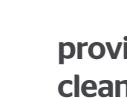

Craig, Robin, and everyone at Chilton Logging, thank you for being the hands and feet of Jesus to so many precious men, women, and children in need. Through your generosity, you have:

provided lifesaving aid to **21,582** refugees

rescued **39** malnourished babies

provided **6,080** people in four countries with  
clean water

impacted **185,615** lives in **16** countries

Your generosity has resulted in a truly global impact. It's rescued starving children from the hills of Guatemala. It's delivered critical medicines to sick refugees in camps on the South Sudanese border. It's shared the Gospel with North Koreans for the first time. It's provided emergency relief in the wake of natural disasters ... and so much more.

Every day you're reaching around the world and bringing light into some of the darkest places. You're offering practical help and spiritual hope that trigger an unbelievable transformation in people's lives.

We cannot wait to see the impact you will continue to make in the coming years!

**Thank you for investing in  
something that will outlive you  
and last for eternity.**
