

GRACE HOME FOR GIRLS

Every day in Peru, at least 8 girls from ages 14 to 17 are sexually abused. An estimated 90 percent of girls suffering from disorders such as anorexia, bulimia, and self-mutilation have been abused in some way—physically, sexually, or emotionally.

These girls carry heavy burdens resulting from the torment that follows such abuse . . . physical and emotional pain that invades every aspect of their lives and results in despair. Eighty percent of those who have been abused also struggle with some form of addiction later in life. Many families cannot afford help for their daughters, and even if they could, there is nowhere in their communities to take them for professional help. Without any support opportunities, these girls are left on their own.

Their situations seem hopeless . . . their futures desolate. But today, there is a greater hope for these women and girls—through the safe refuge and nurturing environment at Grace Home, located outside the capital city Lima.

Our partner in “Camino de Vida” established this home to be a safe haven, a place where young women struggling with these debilitating circumstances can find healing, restoration . . . and hope.

Grace Home is the first of its kind in Peru—a faith-based facility that provides counseling and support to girls who suffer from these disorders and abuse. Our national partners are committed to helping them and sharing the love of God.

Their doors are always open to girls in need . . . no one will ever be turned away. Families will no longer feel hopeless in seeking help for their daughters.

Although Grace Home is complete, our partner is in desperate need of further outfitting for the home in order to best care for these girls. Your gifts help supply items such as:

- **Kitchen appliances and equipment**
- **Cabinets, shelves, and granite countertops**
- **Pillows, lamps, and carpeting for the home**
- **A sprinkler system**
- **SUV and 15-passenger van to ensure they have stable and safe transportation**
- **Various furniture and office supplies needed for residence at the home**

These items are necessary for the ongoing development of the home so they can continue to offer a safe and supportive environment for these young girls. By giving toward the outfitting of this home, you provide hope and give the opportunity for healing and restoration from the abuse they've experienced.

A total of \$65,000 will equip Grace Home with the supplies it needs to continue helping girls who have been trapped by their physical, emotional, and desperate situations.
