

HUMANITARIAN AID

Gifts in Kind

In 2017 alone, World Help shipped more than **\$18.5 million** worth of donated products around the world.

Each year, we receive, sort, ship, and distribute critically needed products directly to children and families through development and relief programs worldwide. Some products we distribute include:

- Medical equipment and supplies
- Educational supplies
- Basic hygiene products
- Prepackaged dehydrated food
- Clothing and shoes
- Emergency materials
(tents, bedding, mattresses, and more)

WHY WORLD HELP?

Giving products, freight, or services in kind not only helps communities, families, and children, but also helps your business and the environment. World Help is a fast, efficient, and a responsible business solution.

For years, we've been partnering with dozens of like-minded corporations, manufacturers, and relief organizations to efficiently distribute in-kind donations of high quality products to those in need.

Our product distribution strategies are carefully crafted to benefit local populations without disrupting their economies or existing donor product sales in the region. We take careful measures to ensure that the products provided by our donors reach men, women, and children who need them most, and all giving risks are mitigated.

World Help has a proven track record in supply-chain management, logistics infrastructure, and last-mile delivery. When you partner with us to donate and distribute products from your business, you send a clear message of corporate social responsibility to your customers –ultimately strengthening your brand.
