

TOTAL VILLAGE TRANSFORMATION

YOU HAVE THE POWER TO CHANGE AN ENTIRE COMMUNITY.

HOW IT WORKS

When you commit to transforming a village, you help provide that community with its most urgent needs. Each Village Transformation is different because no two villages are the same. But every building project is selected for its specific ability to make permanent change.

Here are some of the most common needs in these communities:

Clean-water wells

New or renovated school buildings

Small homes

Medical clinics

Church buildings

Village Transformation provides an opportunity for a hands-on, long-term community project with direct, on-the-ground personal involvement. In many cases, you can even travel to the village to help with construction and build a strong connection with the people you are helping.

Please consider how you can be a part of this effort to save people's lives, bring hope, and restore dignity to hurting individuals around the world.

You can transform a village in one of three ways:

ALL AT ONCE

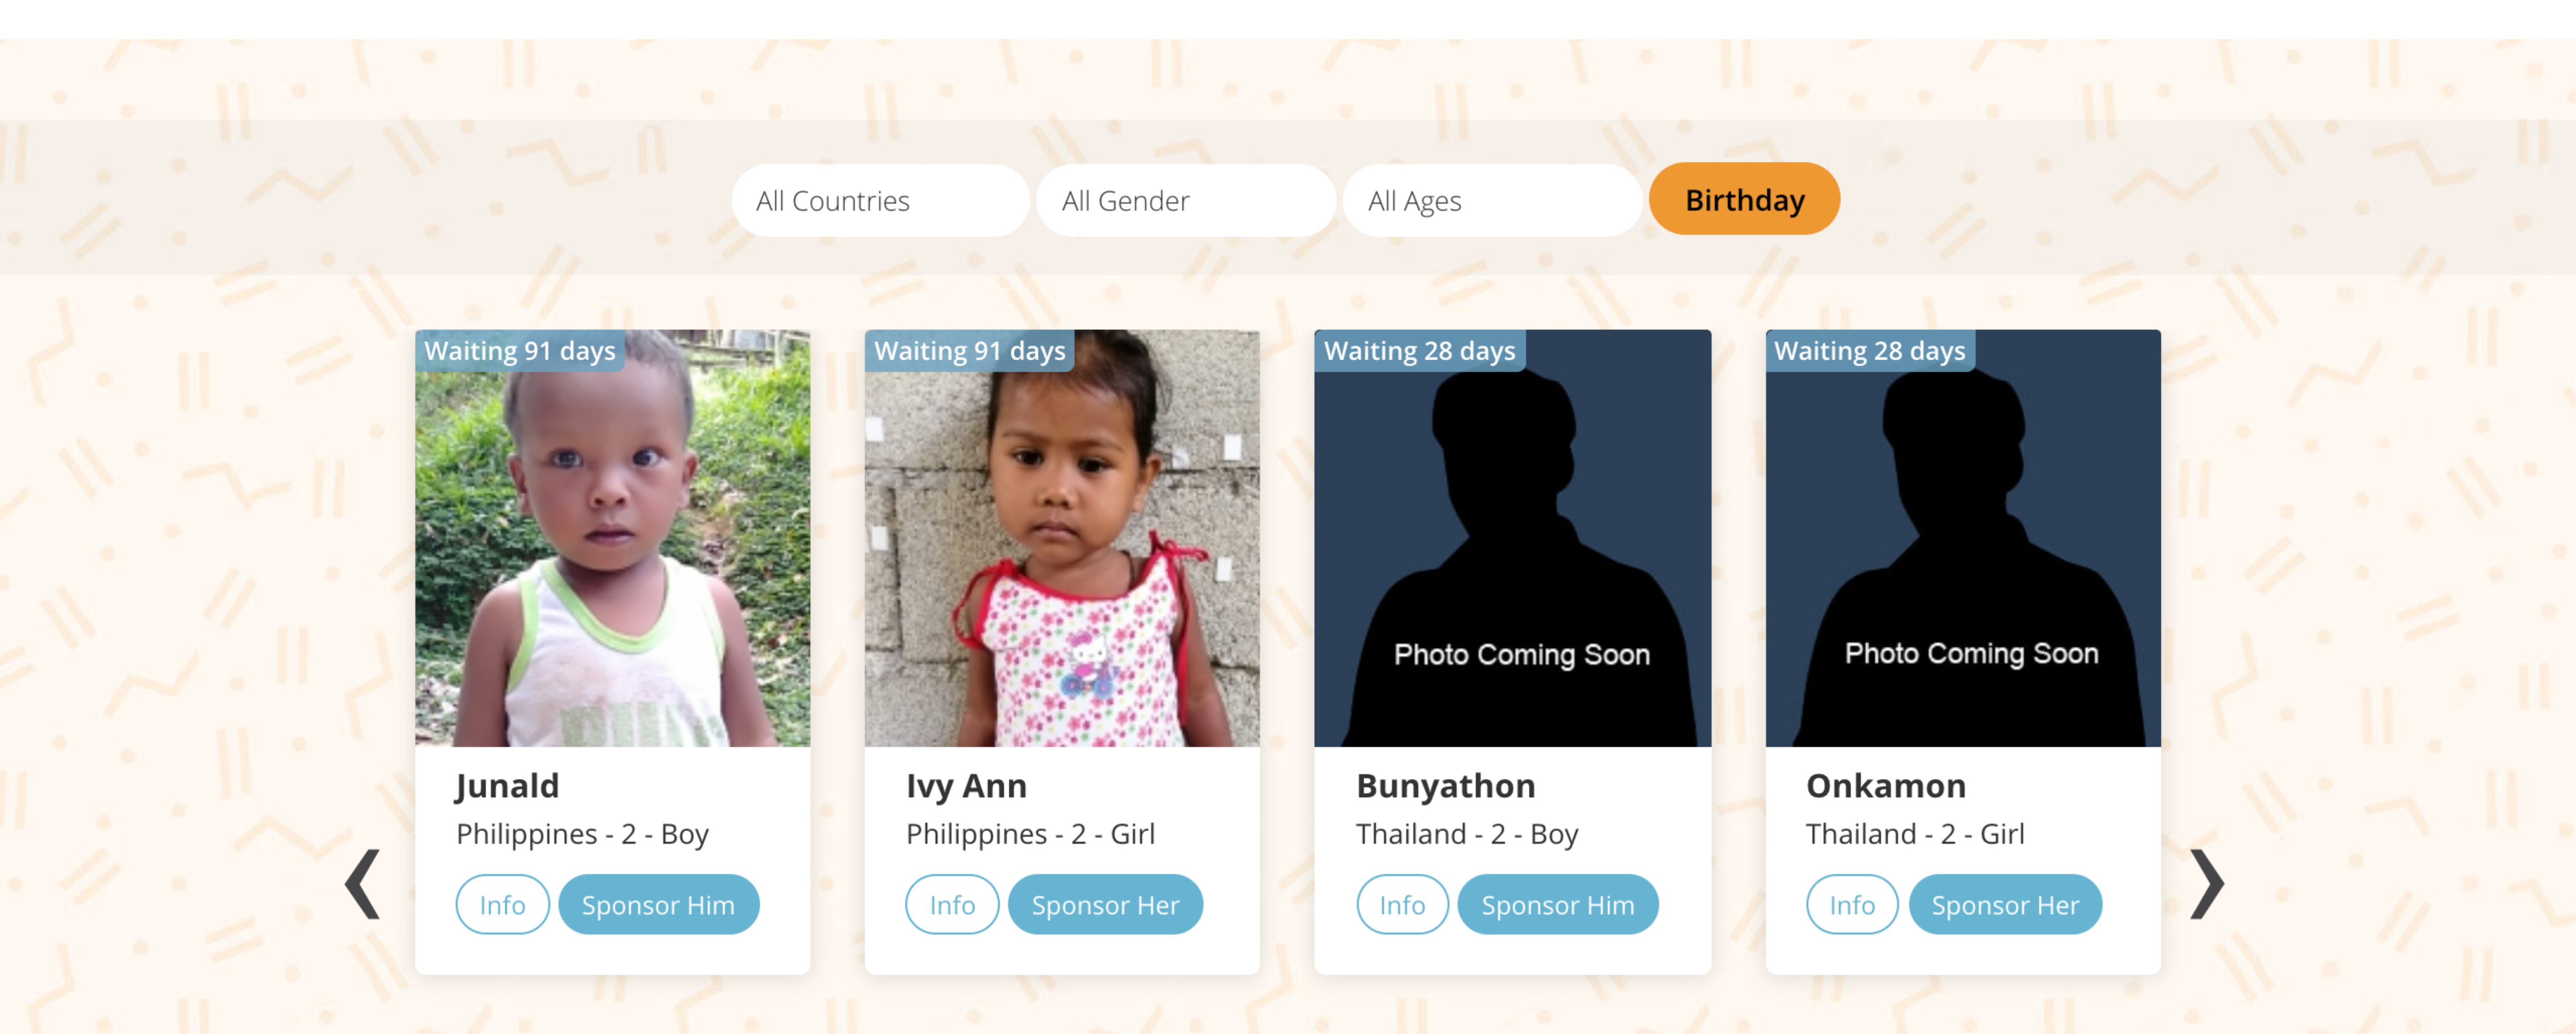

OVER A THREE-YEAR PERIOD

A PARTIAL TRANSFORMATION

YOU CAN BUILD RELATIONSHIPS THAT LAST A LIFETIME

Notes & Questions

The Village Transformation project has been a great avenue for our church to share the love of Jesus Christ by addressing both the physical and spiritual needs of our village. This project has truly ignited a passion to reach not only the community in Guatemala but also the people where we live.

Dr. John Lloyd
Pastor, [Christ Community Church](#)
