

MONTHLY PRAYER GUIDE

JUNE
2020

As you make your way back to a normal routine, please continue to pray for people in developing countries who are still suffering from the fallout of the coronavirus.

WEEK 1

May 31
- June 6

PRAY FOR INDIA

The economic crisis caused by the coronavirus has taken a major toll on India. More than 120 million people were unemployed at the beginning of May. Our partners learned of one young woman who couldn't get another job even though she recently graduated from nursing school because the financial crisis means that hospitals can't afford to hire new staff. *Pray that God will supply the needs of out-of-work families as they continue to face this pandemic.*

WEEK 2

June
7 - 13

PRAY FOR PERU

Peru has one of the highest numbers of coronavirus cases in Latin America, second only to Brazil. The capital city alone has half of the confirmed cases in the country, and the greatest concern is a lack of medical equipment. There aren't enough ventilators and oxygen tanks for all of the patients, especially if the numbers keep increasing. *Pray that God would heal the people in Peru who are suffering from the coronavirus and that the outbreak in this country will soon be under control.*

WEEK 3

June
14 - 20

PRAY FOR IRAN

Because of a mask shortage in Iran, Christians have banded together to make masks in their homes and then go out in the streets and give them away. They are using this as an opportunity to boldly share their testimonies. Although people in this Muslim-majority nation are usually opposed to Christians, they seem to be more receptive during this crisis. *Pray that God will soften hearts and continue to use this time to reach more people with the Gospel.*

WEEK 4

June
21 - 27

PRAY FOR NICARAGUA

People in Nicaragua's rural and indigenous areas were struggling to have enough food even before the coronavirus crisis. Now, the economic crash from the pandemic has made it even harder to survive. Our partners say they have as many as 50,000 families asking for food, and they can't keep up with the demand! *Pray that God will provide these families with the food they need to survive and stay healthy.*

WEEK 5

June 28
- July 4

PRAY FOR UGANDA

Uganda went under lockdown just as the country's planting season was getting under way. "We have to grow food," our Uganda partner said. "Otherwise, how are we going to feed the kids?" Although Uganda's lockdown restrictions are now easing up, many people worry this disruption may cause a long-term food shortage. *Pray for the farmers in Uganda to have as successful a crop as possible this year and for Ugandan families to have access to the food they need.*

The coronavirus is still impacting impoverished people every day.

“

I have said these things to you,
that in me you may have peace. In
the world you will have
tribulation. But take heart;
I have overcome the world.
- John 16:33 (ESV)

”
