

# MONTHLY PRAYER GUIDE

SEPTEMBER  
2020

Please join us in praying for families struggling to survive poverty, the pandemic, and recent disasters.

## WEEK 1

August 30  
- Sept. 5

### PRAY FOR LEBANON

Last month's explosion in Beirut left more than 300,000 people homeless. The disaster couldn't have come at a worse time as the country was already in an economic crisis. Most families can't afford to repair their homes or even buy many groceries. On top of all that, they're facing a global pandemic. *Pray for families to recover quickly from this devastation. And pray for the country of Lebanon as a whole since the nation is in so much turmoil right now.*

## WEEK 2

Sept.  
6 - 12

### PRAY FOR GUATEMALA

Impoverished families throughout Guatemala were struggling long before the coronavirus pandemic. Recent droughts and scorching heat destroyed most of the crops. Now, these out-of-work families have no money to buy food and no crops to tide them over until help arrives. *Pray that the people of Guatemala who are on the brink of starvation will receive nutritious food and clean water before it's too late.*

## WEEK 3

Sept.  
13 - 19

### PRAY FOR ZAMBIA

One of our partners in Zambia recently visited the children's ward at a hospital and was shocked to find they only had two heart monitors to serve more than 50 patients. As the coronavirus spreads, hospitals in developing countries are only going to get more congested. *Pray that God will supply hospitals and clinics with the medical equipment needed to treat their patients.*

## WEEK 4

Sept.  
20 - 26

### PRAY FOR THAILAND

Over the past few months, suicide hotlines in Thailand have seen a 1,400 percent increase in calls. Why? Because people are out of work, starving, and desperate. Many wait in food distribution lines for hours, only to be turned away because there's nothing left. *Please pray that God will comfort these hurting people's hearts and meet their physical needs during these dark times.*

## WEEK 5

Sept. 27  
- Oct. 3

### PRAY FOR STUDENTS AND TEACHERS WORLDWIDE

Many children around the globe have recently returned to school after months of being away because of the pandemic. Their teachers now have extra challenges like helping students catch up while also making sure the kids socially distance. Other schools have yet to reopen because they still don't have the equipment needed to keep students and staff safe. *Pray that these children will get their education back on track as soon as possible and for schools lacking the supplies needed to reopen.*

Want to help meet some of these needs?  
Visit [worldhelp.net/coronavirus](https://worldhelp.net/coronavirus) to give today.

“

And my God will meet all your needs according to the riches of his glory in Christ Jesus.  
— Philippians 4:19 (NIV)

”
