COVID Information and Expectations

Entry Requirements

What to Expect

GUATEMALA

Entry Requirements

ENTRY INTO GUA

- Passengers must have a medical certificate with a negative Coronavirus PCR or Antigen Test result. The test must have been taken at most 3 days before departure from the first embarkation point.
 - ***World Help does require that all travelers have the COVID 19 vaccine when traveling to visit our partner in Guatemala. This requirement was decided after much prayer and after seeking counsel from a doctor. Please see the letter included at the end of this document from Dr. Richard Lane.***
 - ***World Help travelers must have a certificate of vaccination against the Coronavirus with the last dose administered at least 2 weeks before departure.***

ENTRY INTO US

- Effective January 26, the Centers for Disease Control and Prevention (CDC) will require all air passengers two years of age and over entering the United States (including U.S. citizens and Legal Permanent Residents) to present a negative COVID-19 test, taken within three (3) calendar days of departure, or proof of recovery from the virus within the last 90 days. Airlines must confirm the negative test result or proof of recent recovery for all passengers prior to boarding. Airlines must deny boarding of passengers who do not provide documentation of a negative test or recovery.
- At this time all air passengers traveling to the US, regardless of vaccination or antibody status, are required to provide a negative COVID-19 test result or documentation of recovery.
