

MONTHLY PRAYER GUIDE

This month, join us in praying for people around the world facing starvation.

AUGUST
2022

WEEK 1

July 31 -
Aug. 6

PRAY FOR THE PEOPLE OF SRI LANKA

Sri Lanka is facing a devastating economic crisis that has left 7 out of 10 families unable to buy enough food for their families. “Those who were having three meals have decreased to two,” our partner said, “while those who were eating two meals have declined to one.” They regularly see children faint from hunger during school and church services. *Pray for Sri Lanka’s economy to stabilize and for families who are starving to receive the help they need.*

WEEK 2

Aug.
7 - 13

PRAY FOR STARVING FAMILIES IN AFGHANISTAN

When the Taliban took over Afghanistan, the upheaval and resulting refugee crisis sparked a massive food shortage. Over 95% of the population isn’t getting enough to eat, and an entire generation is growing up malnourished. Food is especially scarce in displacement camps where many families are still living a year after fleeing from the Taliban. *Pray for the safety of those living under the Taliban’s rule and that God provides them with ways to feed their families.*

WEEK 3

Aug.
14 - 20

PRAY FOR UKRAINIANS WHO ARE RUNNING OUT OF FOOD

When Russia first invaded Ukraine, help poured in from abroad. But as the war drags on, that support has drastically decreased. Food is running out in refugee centers, and as the Russian military closes in on key cities, people who are trapped in those cities have been cut off from receiving much food or clean water. *Pray for peace in Ukraine, and that both refugees and those caught in the warzones will continue to have access to the essentials they need to survive.*

WEEK 4

Aug.
21 - 27

PRAY FOR THE PEOPLE OF NORTH KOREA

North Korea has been in the middle of a historic food crisis since 2019, and now a COVID-19 outbreak has made the situation even worse. The country went into lockdown during May and June, the two most important months for rice farmers. With less rice to feed the starving nation, even more people are starting to die from hunger. *Please pray for the health of North Korea's people and that the government would open its borders to outside food sources.*

WEEK 5

Aug. 28 -
Sept. 3

PRAY FOR FAMILIES FACING FAMINE IN ETHIOPIA

Ethiopia's Tigray region has been plagued by civil war since the end of 2020. The war has destroyed fields, killed livestock, and forced families to flee for their lives. As a result, more than 400,000 people are facing "famine-like conditions" according to the United Nations. *Please pray for this war to be resolved soon and that, in the meantime, people will respond to this crisis to help those who are starving.*
