## World Help Fact Sheet

**President**

Noel Brewer Yeatts

**Founded**

1991 by Vernon Brewer

**Headquarters**

Forest, Virginia

**Mission**

World Help is a Christian humanitarian organization serving the physical and spiritual needs of people in impoverished communities around the world, providing help for today and hope for tomorrow. Since 1991, World Help has impacted more than 80 million lives in more than 70 countries.

**What We Do**

World Help exists to meet the physical needs—food, clean water and medical resources — and spiritual needs — Bibles, church planting and pastor training — of people around the world in order to show God’s love in a tangible way. World Help focuses on spiritual development, humanitarian aid and relief, community development, and education and sustainability, working with more than 85 trusted local partners who are established in the community they are serving. These partnerships enable World Help to better serve and understand the physical and spiritual needs of local communities in more than 70 countries across Central & South America, the Middle East, Africa and Asia.

**Global Work**

World Help focuses on meeting urgent physical needs of the most vulnerable while also investing in sustainable solutions in the fight against poverty. Every project not only helps transform a life, but also opens the door for World Help’s partners to share the love of Jesus.

- **Aid & Relief** - *Crisis response, feeding centers, rescue programs, humanitarian aid shipments*  
When poverty or disaster strikes, World Help provides immediate help to communities in desperate need. This can come in the form of food, a shipment of medical equipment, or warm clothes in the middle of winter.
- **Community Development** - *Clean water projects, medical clinics, children's homes, schools, family homes, and church buildings*  
World Help works alongside local churches to provide access to clean water, proper housing, and medical care to help break the cycle of poverty and create long-term solutions that empower communities around the world to build a better future.
- **Education & Sustainability** - *Child sponsorship, vocational training, agricultural initiatives*  
After a community's physical needs are met, the most effective way to help and empower them is through education, vocational training, and agricultural opportunities.
- **Spiritual Development** - *Distributing Bibles and spiritual materials, planting churches, and training Christian leaders*  
Complete restoration requires meeting a person's physical needs and spiritual needs. World Help shares the Gospel and gives the gift of God's Word to some of the most unreached communities around the globe. World Help also equips local pastors so communities and churches can thrive and flourish together.
