

YOU HELPED RESCUE A CHILD FROM STARVATION

Thank you for your generous gift to feed starving children around the world.

This past year was extremely difficult for families living in poverty. The war in Ukraine disrupted supply chains, creating food shortages worldwide. And global inflation meant that parents making just a few dollars a day couldn't afford the soaring food prices to be able to feed their children.

But your gift was a lifeline! You made sure that a child no longer had to go hungry or suffer from the effects of being malnourished. They will never forget the kindness you showed them in their greatest moment of need.

Here are two testimonies to give you a glimpse at the impact of your life-changing gift:

MARTA: "I HAVE NO WORDS TO EXPRESS MY GRATITUDE"

Marta and her baby girl live in Venezuela, where a seven-year economic crisis has pushed over 75% of the population into extreme poverty. Food prices are astronomical, and starvation rates are skyrocketing.

Many people – including Marta – have resorted to desperate measures to feed their families.

Marta moved near the community junkyard and would visit the dump every day, looking for something she and her daughter could eat or at least something they could sell to have a little extra money for food. It was exhausting, dirty work, but it was the only way she could keep her toddler from starving – at least until recently.

You helped provide lifesaving food for Marta's daughter!

Thanks to gifts like yours, Marta is now able to go to a local feeding center to get food for herself and her daughter. The center feeds over 900 children as well as several hundred adults. In addition to food, the people who attend the center also receive other essentials and have the opportunity to hear the Gospel and receive a Bible if they would like.

"I have no words to express my gratitude," Marta said. Now she has comfort knowing her little girl won't starve and joy from experiencing the love of Christ through your generosity.

ELIZABETH: "THIS FOOD BRINGS PEACE"

Elizabeth is the proud mother of seven beautiful children in Zambia. A few years ago, tragedy struck her family when her husband suddenly died. For the first time in her life, Elizabeth became the sole provider for her family.

She struggled to find a stable job with a consistent income. Needing to make money fast, Elizabeth began searching for items she could sell in the community to earn a small profit. But despite her hard work and innovation, her income often wasn't enough to feed one of her children ... let alone all seven.

There were many nights that the family went hungry without any food to eat.

That's when donors like you stepped in to make a difference in Elizabeth's family! She received plenty of nutritious food for her seven children. Now, she can focus on meeting their other basic needs without worrying about where their next meal will come from.

"Not only does this food give us strength, but it also brings peace to our families and our communities," Elizabeth said.

THANK YOU!
