

## PROJECT REPORT

# YOU PROVIDED LIFESAVING HELP FOR PEOPLE IN THE HOLY LAND!

Since Hamas fighters attacked Israel on Oct. 7 and war broke out in the Holy Land, tens of thousands of people have been displaced, making it difficult for them to find daily essentials.

But as this war unfolded, you were one of the first people to provide critical help for men, women, and children in the Holy Land! Through your generosity, people received emergency supplies like food, water, medical kits, and more. You made sure they didn't face this crisis alone.

Thanks to you, people like Saar and Dvora have hope for the future.

## SAAR - FINDING GOD'S LOVE DURING THE WAR

Violence and political instability have been common for years where Saar\* lives with his wife and two children ... but things took a turn for the worse when war broke out.

**“On a normal basis, we are working hard daily to survive on a small income,” Saar said. “But when a situation like this one happens, our world flips upside down.”**

Saar and many others in the Holy Land were last paid for their work almost two months ago. And as time continues to pass, the financial strain gets tighter and tighter. With no money to pay for daily essentials for his family, Saar feared for their future.

*Thank you for being the hands and feet of Jesus in  
the Holy Land!*

Thankfully, you stepped in to provide people like Saar with the help they needed!

**Through your generosity, Saar and his family began to receive care packages with food, water, medical supplies, and more from a local church. After experiencing this powerful demonstration of God's love, Saar and his entire family accepted Christ as their Savior!**

They are so grateful that people like you cared enough to help them – and as you met their immediate physical needs, you also opened the door to meet their spiritual needs too.

Now, they attend church regularly as a family. The children look forward to Sunday School each week, and Saar and his wife often share the Gospel with non-believers. Because of your help, their entire community is hearing about salvation through Jesus!

## DVORA - LEANING ON THE LORD THROUGH HARD TIMES

Dvora\* is a Christian living in a town just east of Bethlehem. When Hamas attacked Israel, Dvora's church was one of the first to respond and distribute supplies to their neighbors who were pushed into poverty by the effects of the war.

But soon, Dvora herself was in need of help. **Dvora and her husband both lost their jobs because of the war and had no idea how they would be able to survive.**

"It's very hard when two people used to work, and suddenly there is no one working," Dvora said.

She had rent, electricity, and water bills to pay, plus school tuition fees for her kids ... and no way to do it. With no income, she didn't even know how they would afford food. But she knew the Lord would find a way to provide for her.

That's where you came in!

**God used your generous donations to provide**

**essentials like food, blankets, flashlights, and more for Dvora and other members of her community, distributed through the local church.**

"Thank you for helping us and standing with us," Dvora said.

You have truly provided lifesaving help and hope to people impacted by the war in the Holy Land.

## THANK YOU!
