

YOU HELPED PROVIDE LIFESAVING AID TO REFUGEES AND DISPLACED PEOPLE WORLDWIDE!

Thank you for being a lifeline for refugees and displaced people struggling to survive.

As temperatures plunged in places like Ukraine, Afghanistan, and Syria, refugees and displaced people didn't have access to the winter supplies they needed to survive. But that's when you stepped in to help!

You provided lifesaving essentials like food, clean water, warm clothing, medical care, and more – meeting someone's most urgent needs and tangibly showing them the love of Christ.

Here are two testimonies to give you a glimpse at the impact of your life-changing gift:

YULIA: A NEW HOPE

For Yulia, a young mom living in Ukraine, Russia's invasion couldn't have happened at a worse time. She was eight months pregnant when her family fled for their lives.

They traveled to countless shelters, but they all refused to take her in because she was pregnant and required such specialized care.

Thankfully, Yulia heard about our partner's refugee center, which is supported by donations like yours. The staff there took her family in with open arms, providing them with a place to stay and the essentials

Your support helped transform the lives of refugees and displaced people in need. Thank you for your incredible impact!

they needed like food and clothing.

A month later, Yulia's son was born!

Everyone at the center loved doting on the newborn. Thanks to the generosity of people like you, he received plenty of love, care, and support from his very first day of life.

Because of you, people like Yulia not only received essentials, but also experienced God's love through life-changing support and encouragement.

YAHRA: A BRIGHTER TOMORROW

Yahra* is a teenager living with her family in a displacement camp in Afghanistan. For a long time, they struggled to make ends meet. They never had enough to eat, durable clothes to wear, or a reliable way to stay warm when temperatures dropped.

Yahra desperately wanted to work so she could help her family survive, but there were no job opportunities available to her. But thanks to supporters like you, she was able to attend a tailoring program for people who had been displaced.

She had a natural talent for making clothes and learned new skills quickly. Plus, she received nutritious food to share with her family during her time in the program!

Now, Yahra's new tailoring business is quickly growing, and she uses her income to support her family.

"Her orders and income are on the rise, a stark contrast to a time when she couldn't afford taxi fares and often had to travel long distances on foot due to financial constraints," our partner said.

Yahra is incredibly grateful and proud that she can help her father and brothers afford essentials like food and clothing.

Your gift has completely transformed the lives of refugees and displaced people like her!
