

YOU SHIPPED LIFESAVING SUPPLIES TO PEOPLE IN NEED

Thank you for helping send lifesaving supplies like food, clothing, and medical equipment to people in urgent need this past Christmas season!

With the price of essentials climbing worldwide, many people couldn't afford food – let alone other essential items like clothes or hygiene products. But your generous gift was a lifeline for when they needed it most!

Here are two testimonies to give you a glimpse at the impact of your gift:

JEREMÍAS: A LIFE-CHANGING PAIR OF SHOES

Jeremías is a 6-year-old boy who lives in a small village in the rainforest region of Peru. **Like most boys his age, Jeremías has lots of energy and enjoys playing and running around with his friends – but he didn't have shoes to wear for a long time.** His last pair broke, and his parents couldn't afford to buy him new ones.

Jeremías' father sells tropical flowers he finds in the rainforest by his house. But since tourism has slowed down in recent years, his business has been struggling. He could hardly afford to feed his family, let alone purchase other important items like new shoes for his son.

But thanks to the generosity of supporters like you, help arrived at just the right time! **Your gift helped ship a container filled with aid like sandals and other essentials to help people like Jeremías and his family.**

Your gift transformed lives this holiday season!

He was so excited to try on his new shoes for the first time!

“Thank you for my new sandals,” Jeremías said. “I love them!”

Now, Jeremías’ parents don’t have to worry about him getting hurt because he doesn’t have shoes. **Jeremías and his family are so thankful for your help!**

NIKITA: KEEPING WARM THIS WINTER

Nikita and his mom were forced to flee their home in Ukraine after Russian forces began shelling their city. They escaped with the few belongings they could carry to a small village in the mountains and found a safe place to live, but they weren’t prepared for the bitterly cold winters. **Nikita needed a coat but had no way to buy one in the remote village – and they’d just spent their last savings on medicine.**

It looked like it was going to be a long, cold winter.

But that’s when world changers like you stepped in to help! **Nikita received a warm winter coat and other essentials from a shipping container you helped send.** Nikita was so excited that he couldn’t stop smiling, and the coat was exactly his size!

“Having a jacket will mean my mom and I don’t have to worry about where to find the money to buy me one,” Nikita said. “Thank you very much.”

Thank you for helping ship life-changing supplies to people like Jeremías and Nikita. Because of you, countless men, women, and children received the essentials they needed to survive and experienced God’s love firsthand.
