

MONTHLY PRAYER GUIDE

APRIL
2024

This month, please join us in praying for children suffering from famine around the world.

WEEK 1

March 31 -
April 6

PRAY FOR SUFFERING CHILDREN IN HAITI

The people of Haiti have suffered from food insecurity for decades, but the recent outbreak of violence has only made a bad situation worse. Gangs have taken over the country, and the government has collapsed. As a result, many businesses are shutting down, and it's dangerous to go out and try to find what little food is available. People can't feed their families, and over three million children are at extreme risk of starvation. *Pray that God will restore peace in Haiti so children can live safe and healthy lives.*

WEEK 2

April
7 - 13

PRAY FOR CONTINUED HEALING FOR RWANDAN FAMILIES

April 7 marks 30 years since the start of the Rwandan Genocide. Since then, the country has made progress in addressing poverty and hunger, but over 30 percent of Rwandan children still suffer from malnutrition. Many families affected by the genocide still experience trauma and poverty as a direct result of the violence. And with skyrocketing food prices, more children are going hungry. *Pray for God's continued healing and provision for Rwandan children and their families.*

WEEK 3

April
14 - 20

PRAY FOR STARVING AND HOMELESS CHILDREN IN NORTH KOREA

North Korea recently reopened its borders to foreign trade, but the country is still dealing with a serious food shortage. The number of malnourished North Koreans, especially children, has continued to rise. Homeless and starving children, known as kotjebi, are becoming more common as parents can't afford to feed or care for them anymore. *Pray that the North Korean government will prioritize the needs of its citizens so these children won't starve.*

WEEK 4

April
21 - 27

PRAY FOR MALNOURISHED CHILDREN IN PAKISTAN

Even though it hasn't been on the news, Pakistan is suffering from a major humanitarian crisis, including severe food insecurity. In 2022, a series of floods destroyed crops and caused widespread damage. Over three years later, millions of people still don't have enough food to eat, many of whom are children. Around 80 percent of Pakistani children are malnourished, while many others suffer from stunted growth. *Pray that Pakistan will recover from the floods and that its children will have enough to eat.*
