

YOU MADE AN ETERNAL IMPACT AROUND THE WORLD

Thank you for providing physical and spiritual help to people around the globe who needed it most!

You helped meet urgent needs by providing essentials like food, water, clothing, medical supplies, and God's Word. Because of you, victims of war received lifesaving supplies. Impoverished communities now have access to clean water. Persecuted Christians received Bibles. Women trapped in the sex industry experienced freedom. And so much more!

Here are two testimonies to give you a glimpse of your impact:

LIZBETH: PRAISING THE LORD THROUGH HARDSHIP

Lizbeth is a single mom who works long hours in a local market outside of Lima, Peru to provide for her two girls. Her oldest daughter helps her until it is time to go to school, and Lizbeth's youngest – not even a year old – is strapped to her back while she works.

Despite spending all day working at the market, though, Lizbeth still struggled for a long time to make ends meet for her family.

She often couldn't afford necessities like nutritious food, hygiene supplies, or medical care for her growing children. With no one to turn to, Lizbeth was losing hope of providing her daughters with the life they deserved.

But then, you stepped in to give her baby diapers and

Thank you for providing help and hope worldwide!

nutrient-rich rice!

Lizbeth was so grateful to receive help and hope from a caring person like you, and she gave God all the glory for it.

“Thank you so very much for this wonderful gift of fortified rice,” Lizbeth said. “It will be so helpful for the health of my daughter and myself. God has been so good to put people like you in my life. God bless you all!”

ASTER: A FUTURE FREE OF DISEASE

Aster* lived with an obstetric fistula, an injury that can occur after a long, strenuous childbirth, for 25 years.

While not life-threatening, fistulas can be devastating because they make it extremely difficult to maintain good hygiene and often lead to women being exiled from their communities or even abandoned by their families.

The condition itself is actually easy to treat, but in Ethiopia where Aster lives, many women lack access to proper medical care. Aster’s situation meant that she had fewer educational and job opportunities, pushing her further into poverty.

When Aster’s daughter developed a fistula herself after a difficult pregnancy of her own, both were devastated. They felt completely alone and feared the future. Fortunately, your gift helped provide the medical care they needed!

Aster and her daughter were brought to a clinic you helped support that specializes in treating women with obstetric fistula and helps them rebuild their lives.

“When [my daughter] got into a similar situation, we really felt we got cursed,” Aster said. “Now we are both treated and cured.”

Because of your generosity, Aster and her daughter are now free to return to their community. You have made an incredible impact in their lives.

THANK YOU!
