

YOU MET PHYSICAL AND SPIRITUAL NEEDS IN NORTH KOREA

Thank you for providing food and Bibles to persecuted North Korean Christians and seekers!

In North Korea, following Christ can be a death sentence. The government wants to erase Christianity through strict laws and severe persecution. Anyone caught even saying the name of Jesus can be sent to a prison camp or even executed.

Now, North Korea is also suffering a severe famine. Years of lockdown during the COVID-19 pandemic and ongoing severe weather have left much of the country without stable access to food. Many North Korean Christians are hungry – both physically and spiritually.

But your recent gift provided food and Bibles to North Korean Christ-followers and seekers in urgent need!

Here are two testimonies to give you a glimpse at your gift's impact:

BORA*: A LIGHT IN THE DARK

Bora and her family are part of North Korea's underground church struggling to survive poverty and persecution. To make matters worse, Bora's husband is battling cancer and other severe health issues. He can't work because of his health, so Bora must try to provide for their children alone.

With her husband's medical expenses, Bora could hardly afford food and other essentials ... but she had no idea where to go for help.

Then, world changers like you provided lifesaving help and hope!

You helped share God's Word and the love of Jesus in one of the most spiritually dark nations on earth!

Right when Bora and her family needed it most, they received food and other lifesaving essentials. Now, Bora can feed her family and use her income to pay for her husband's medical expenses. She even wrote our partner a letter to say thank you for all the help you gave her!

"It was touching to read a letter from a sister who shed tears of joy while feeding her children rice for the first time in a long time," our partner said.

Thank you for doing God's work in North Korea. Because of you, people like Bora and her family experienced God's love firsthand and received lifesaving aid.

SAJA*: A LEGACY FOR CHRIST

The Bibles you provided in North Korea not only help Christ-followers, but they're also a light for people searching for the Gospel. Saja is a North Korean who served in the country's military. He even worked hard to become a leader within the ranks. But Saja still felt empty, and he knew something was missing.

One day, Saja received a copy of God's Word from supporters like you. As he read it, God opened his eyes to the Gospel, and he accepted Jesus as his Savior!

As a Christ-follower, Saja defected from North Korea and began distributing Bibles to North Koreans across the border. He continues to smuggle the Bibles you and other world changers help provide into his home country to this day.

"We praise the Lord for sending the Bible to North Korean souls who need His Word," Saja said.

Saja's testimony is an incredible example of the ongoing impact your gift had. Because of you, North Koreans like him are hearing the name of Jesus – maybe for the first time!

Thank you for providing food and Bibles in North Korea. Your generosity has a ripple effect and will make an eternal impact for generations to come.
