

# YOU PROVIDED LIFESAVING SUPPLIES TO TO REFUGEES AND DISPLACED PEOPLE

War, natural disasters, and other conflicts have taken countless people away from all they've ever known. Displaced families in Afghanistan live in camps where resources are scarce. Ukrainians taking shelter in neighboring countries are waiting to return home. And Syrian refugees in Jordan are struggling to afford basic healthcare.

**But your gift was a lifeline to a refugee or displaced person unable to make ends meet on their own. Thank you for providing essentials for people forced to flee their homes.**

Through your generosity, someone in need received supplies like food, water, medical care, and more.

**Here are two testimonies to give you a glimpse of your life-changing impact:**

## MARYANA: MOTHERHOOD DURING WARTIME

**Ever since Russia launched its full-scale invasion of Ukraine over two years ago, Maryana has had one thought ... how would she provide for her family during a war?**

To protect their eight children from the horrors of war, Maryana and her husband decided to leave home. The family of 10 moved into a small apartment with her husband's parents. They were safe from the fighting, but they soon had a new battle to face.

With few jobs available and no steady source of income,

*Thank you for providing help and hope to refugees and displaced people.*

they struggled to afford many basic necessities – especially since the cost of supplies like food, medicine, and school supplies had skyrocketed in Ukraine.

**But thanks to your generosity, Maryana and others like her received lifesaving food for their families!**

Maryana was so grateful to finally have a way to care for her children without worrying about when they would eat next.

“I feel like God is showing His love to our family through you,” Maryana said.

Thank you for being the hands and feet of Jesus to refugees and displaced people like Maryana!

## NEZAM: HOW SOYBEANS CHANGED HIS LIFE

**For years, Nezam\* watched his children suffer from malnutrition. His family lives in a camp for displaced Afghans, where it’s difficult to find necessities like nutritious food.**

As his children grew, Nezam constantly needed to seek medical treatment for them. They were underweight from lack of food, which was affecting their development.

Over time, the medical bills pushed Nezam’s family further into poverty, and he struggled to provide his children with even one meal a day.

Nezam was at a loss on how we would provide for his family. He felt stuck in an vicious cycle ... until you stepped in. **Through your generosity, Nezam received food for his family as well as training on how to grow soybeans!**

As a soybean farmer, Nezam now has an efficient, sustainable way to feed his children and even has enough left over for their livestock. This helps the animals produce milk that Nezam can sell in the market for income!

“Since incorporating soybeans into our diet, the health

of my children has significantly improved, and they are now healthy,” Nezam said.

Because of people like you, Nezam’s life was completely transformed!

## THANK YOU!
