

## THANK YOU FOR PROVIDING RELIEF TO REFUGEES AND DISPLACED PEOPLE!

**You helped provide lifesaving essentials to people displaced by war or other crises.**

Countless men, women, and children worldwide have been driven out of their homes by wars, natural disasters, and economic crises. They often end up living in underfunded refugee camps or impoverished settlements. Many lost everything.

But you were there to provide emergency supplies like food, water, clothing, medical care, God's Word, and more for refugees and displaced people struggling to survive. Your gift was a lifeline and a source of hope in their darkest hours. Thank you for your incredible gift!

**Here are two testimonies to give you a glimpse at your life-changing impact:**

### YULIA: A RENEWED HOPE

Before Russia invaded Ukraine, Yulia and her husband lived in a small community in southern Ukraine, where they served in their local church and raised their three children. She was working toward her dream of opening a café someday. But then Russia invaded, and her hometown came under Russian occupation.

**Yulia's family fled to western Ukraine, where they would be safer.** But the relocation came with more bad news – Yulia's husband was drafted into the military shortly after they moved. Yulia was heartbroken not knowing if she'd ever see him again.

Taking care of her children by herself felt impossible, too. **Yulia didn't have enough money to buy enough food, clothing, and other essentials that they needed.**

*Thank you for providing lifesaving aid for refugees and displaced people like Yulia!*

Every day turned into a struggle to stay strong for her kids and survive.

**That's when supporters like you stepped in to help! Yulia and her children received supplies like food, clothing, and hygiene items they urgently needed.** But that's not all!

Yulia also began working at our partner's care center, ministering to other displaced people and volunteers. And thanks to your support, she received the resources she needed to open her café. Now, Yulia and her children are thriving! It's still hard living in the midst of a war without her husband, but Yulia has hope for the future because of your generosity.

## BAHRAM: FOOD FOR THE FUTURE

When the Taliban took over Afghanistan, Bahram\* and his family were pushed into severe poverty as the price of essentials soared. To make matters worse, Bahram could no longer find a job because of his country's struggling economy.

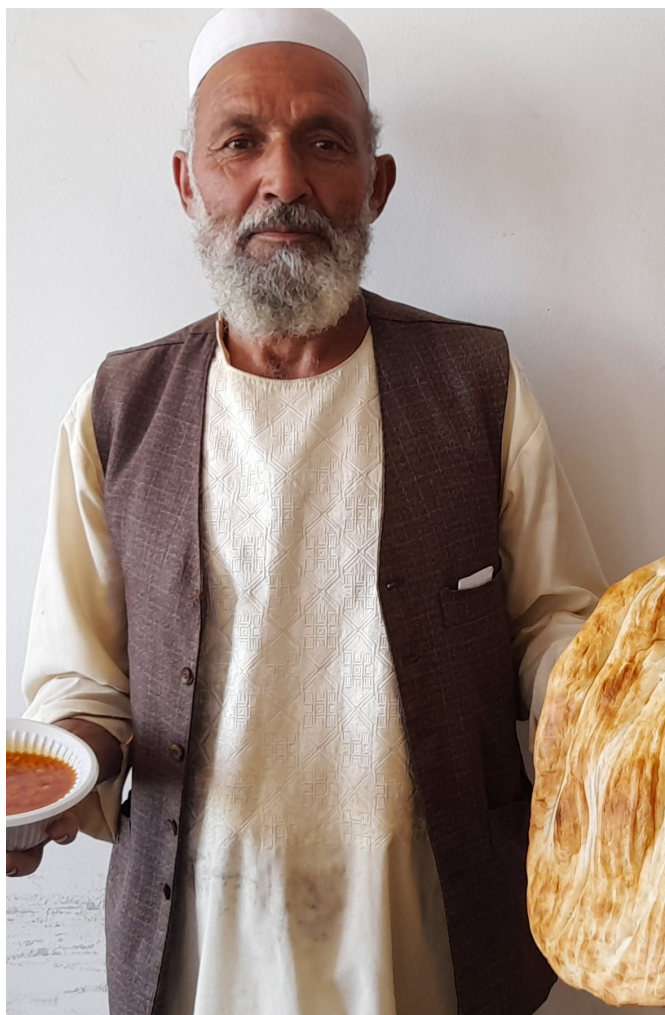

**Without an income, Bahram struggled to provide for his family for several years.** They could hardly afford even basic essentials like food, clean water, and medical care.

**Thankfully, world changers like you were there at just the right time!** Because of your incredible generosity, Bahram received agriculture training and resources to begin growing soybeans. Now, he keeps part of his harvest to feed his family and sells the rest to buy the other essentials they need!

"Soybeans will positively impact our health and bring economic improvements," Bahram said. **He no longer has to worry about how his family will survive. Instead, he has a sustainable way to ensure they are healthy and cared for.**

None of this would have been possible without you. Thank you for providing help and hope to refugees and displaced people in need. Your support has transformed lives and demonstrated God's love worldwide!
