

YOU PROVIDED CLEAN WATER AROUND THE WORLD

Thank you for providing the transformational gift of clean water to men, women, and children around the globe.

Without access to clean water, boys and girls contract life-threatening waterborne diseases. Women are forced to make dangerous treks to collect contaminated water from rivers or streams. And farmers struggle to keep their livestock healthy and prevent their crops from withering away.

But your recent gift to provide clean water to impoverished communities had a tremendous impact! You not only met an urgent physical need, but you also helped introduce people to Christ by allowing them to experience the Living Water found in Him.

Here are two testimonies to give you a glimpse at the impact you've made:

NADU: AN ANSWERED PRAYER

Nadu, like many others from Myanmar, fled to Thailand to escape the country's civil war. She resettled in a small, rural community with her husband and grandson, hoping for a brighter future. Unfortunately, life in Thailand came with its own set of challenges.

One of the greatest struggles Nadu's family faced was trying to find clean water. They never had enough to drink, cook, or clean with.

Thank you for being the hands and feet of Jesus in Thailand!

Their only source of water was a brook over three miles away. Each day, Nadu's husband and grandson were forced to make the journey to collect this water ... knowing it was contaminated and would make them sick. Nadu wished she could help them, but she struggled to walk the distance due to an injury.

Nadu feared for her family's safety when they were gone, praying for the day that they would no longer need to make this long trek.

Thankfully, that day has finally arrived! **World changers like you helped answer Nadu's prayer by providing her community with the life-changing gift of clean water.**

"There will be no need for my husband and grandson to travel far," Nadu said. "They will have access to safe drinking water."

SADUNIKA: A TRANSFORMED COMMUNITY

Sadunika is a 15-year-old girl who lives in Sri Lanka. Her mother works abroad as a housekeeper while Sadunika's father cares for her and takes on labor jobs around their community.

Despite their hard work, Sadunika's parents always struggled to give their daughter one thing – access to clean water.

For six months out of the year, their community suffers from extreme drought. The only source of water came from old, broken pipes at the school. Even though the pipes contaminated the water, tensions ran high during the dry season and fights would frequently break out over the limited supply.

But then, thanks to gifts like yours, a clean water project was completed near Sadunika's school, providing the entire community with clean water!

With a new, reliable source of clean water, fights stopped breaking out in the lines to get water, and people no longer suffer from preventable waterborne diseases. The entire

community was transformed by world changers like you.

"Words cannot describe the impact," Sadunika said. "I thank you from the bottom of my heart for giving such a generous gift to our school."

Thank you, once again, for giving clean water to impoverished communities around the globe. You demonstrated Christ-like love and provided both help and hope to countless people in need!

THANK YOU!

Your recent gift demonstrated the love of Christ to children like Sadunika.
