

# China

**Population:** 1.4 billion

**Main religion:** Agnosticism

**Reason for Bible scarcity:** Religious persecution

In China, believers often can't openly express their Christian beliefs or purchase a Bible for fear of persecution. Many Christ-followers who live in remote, rural parts of the country have never even seen or held a Bible, much less owned one. And because authorities have tightened both public surveillance and laws against religious activity, it is becoming more difficult than ever to obtain Bibles in China. The underground church desperately needs more copies of God's Word to continue growing and discipling new Christians.

## Pray for China

- Pray for Chinese Christians who are facing persecution
- Pray for the wisdom and safety of underground church leaders
- Pray for God's Word to reach even the most remote areas of China
