

YOUR

**FRONT LINE**

IMPACT

Thank you for transforming lives as a Front Line supporter. Because of your generosity, emergency supplies are reaching people who desperately need them – people like Katherine.

Living in rural Belize would already be difficult for most people. But for 88-year-old Katherine, every day is harder than the last. She cares for her adult son with special needs while dealing with health problems of her own, but the essentials they need are often out of reach.

Katherine is unable to work, so she struggles to afford enough food to feed her family and has few options for help since their home is so remote.

Thankfully, Front Line donors like you stepped in and provided Katherine with a supply of nutritious rice! Now, she no longer has to worry about how she will feed her family and herself. Instead, she can rest assured knowing they have a reliable supply of lifesaving food.

“I was praying to God for a Good Samaritan to come along, and you showed up!” Katherine said.

**Katherine is just one example of how you’ve helped save lives as a Front Line supporter! Your compassion is a lifeline and an enduring reminder of God’s provision for people in urgent need worldwide.**
