

## YOUR Bibles = FOR All IMPACT

**Thanks to your incredible support, people are finding hope in God’s Word during their most difficult circumstances.**

Residents in Eastern Ukraine faced a life-threatening situation when a Russian drone caused a fire in their apartment building. Thankfully, everyone survived, but most lost everything – including Maria.

Maria already lives in a country already ravaged by war, so she didn’t know where to go for help or encouragement. She began to lose hope that relief would come.

Thankfully, our partners arrived with essentials for everyone affected by the fire. Then, world changers like you provided Maria and the other families with their very own Bibles! Everyone was so thankful for this priceless gift – if they’d owned a Bible before, it had been destroyed in the fire. They looked forward to exploring God’s Word and drawing hope and strength from its pages.

“This will be the most important book in my home now,” one of Maria’s neighbors said. “I lost all my books in the fire. But this one will be the first and most precious.”

**This story is so powerful because it shows that when you provide Bibles, you don’t just impact one person – you shine a light that transforms entire communities. You’re making an eternal impact!**

Thank you again for making God’s Word accessible for Christ-followers and seekers in Ukraine and around the world.
