

YOUR

FRONT LINE

IMPACT

As a Front Line donor, you step in to help meet urgent needs around the world – often at the exact moment someone has nowhere else to turn.

Because of your generosity, people like Fernanda received the help and hope they desperately needed.

Fernanda lives in Honduras with her family. Her mom works tirelessly to provide for her children, but despite her best efforts, the family can barely afford essentials.

So, when Fernanda became seriously ill, her mom couldn't get the medical care her daughter urgently needed. Without it, she feared for Fernanda's life.

Thankfully, Fernanda's mom discovered a free medical clinic supported by world changers like you! Now, Fernanda has the medicine she needs to get better and stay healthy. Plus, her mom received medication to help with her own health problems.

“[They provided] the care my daughter needed,” Fernanda's mother said. “They gave her all her medications, and they treat her very well here.”

This is the kind of impact your Front Line support makes possible – stepping into moments of crisis and turning fear into relief and uncertainty into hope.

Thank you for meeting critical needs and sharing God's love in a tangible way around the world. You are truly making an eternal impact!
