Summer Fun Fact

You've probably heard of the “Dog Days of Summer,” but do you know where that name comes from? Between July 3 and Aug. 11, the Dog Star, Sirius, becomes visible in the sky for the first time during the year. Sirius is part of the Canis Major constellation and inspired the now-popular term!

Employee HIGHLIGHTS

Get to Know Alli Leffler

Alli is the People Operations Manager in our People Operations Department, working hard to ensure World Help maintains a positive, productive atmosphere. Outside the office, she enjoys CrossFit, spending time outdoors, and walking her puppy, especially with friends. She also has a mild obsession with pretzel bites and will eat them at any time of the day – even midnight!

Speaking of Alli's puppy, Ember is a 10-month-old golden retriever and German shepherd mix who loves the outside just as much as Alli. Around the World Help office, this sweet little pup is affectionately known as "the Rat" – a nickname she has fully embraced!
