

GLOBAL REFUGEE RELIEF

*Provide lifesaving essentials for refugees
and displaced people worldwide*

THE NEED

Conflicts, natural disasters, and other crises have forced countless people to flee their homes. But their fight for survival doesn't end when they escape the danger.

Refugees and displaced people around the world don't have access to basic necessities like food, clean water, and medical care. Their situations may be different, but they all need help for today ... and hope for tomorrow.

Today, you can provide lifesaving supplies for people struggling to survive far from home. You'll be a lifeline for men, women, and children from countries like:

SUDAN

A devastating civil war in Sudan has driven many people across the border into South Sudan. Now, they're struggling to survive without essentials like food and clean water.

UKRAINE

Since Russia's full-scale invasion of Ukraine in 2022, countless people have fled the ongoing violence. Now they need food, warm clothing, and other necessities.

SYRIA

Armed conflict has raged in Syria since 2013, and many Syrians are still living far from home in countries like Jordan. They're facing debilitating poverty without essentials like food and medical care.

SETLE: “EVERYTHING IS DIFFICULT”

When the war reached Setle’s home in Sudan, she and her family ran for their lives. After they crossed the border into South Sudan, they ended up at a refugee camp. They escaped the violence, but now, every day is harder than the last.

Setle’s husband stayed behind, so she struggles to care for her daughters and grandchildren alone. She has found work cultivating other people’s land, but they rarely earn enough to afford even basic necessities.

Food is expensive, and Setle and her family often go to bed hungry. The children are so weak that sometimes, the only thing they can do is sleep.

Other essentials like clothing and medical care are also out of reach. And when even the basics are out of reach, Setle definitely can’t afford school fees and supplies for her grandchildren.

Without support, displaced people and refugees like Setle and her family will continue to go without the essentials they need to stay alive.

HOW YOU CAN HELP

Every \$35 provides a week’s worth of essentials like food, clean water, clothing, and medical care to one refugee or displaced person in need.

Your gift won’t just help save lives – it will also be an enduring reminder of God’s love in someone’s darkest hour.
